Chairman's Message

NOFM was born out of the idea of catering to various service requirements of customers through a single window. Our experience and expertise are the cornerstones of NOFM and we are fully confident that our strong foundation would enable us to undertake any types of hard and soft service requirements of our clientele.

We aim to be the single solution for your multiple requirements by ensuring easy access to all required services from a single point of contact. We strive to meet growing demands of the service industry employing the latest technology and equipment, and we spare no efforts in ensuring high end services at affordable rates.

Salem Mubarak Al Hajri

Chairman, New Orbit Facilities Management

Mission

To provide streamlined hard and soft services essential to the management of a facility under single point of contact following the best practices in the industry and improving upon them.

Vision

To be one of the premium Facility Management companies in Qatar by finding the synergy between cost, efficiency and delivery by following industry benchmarks and exceeding them.

- Repairing & Filling Cracks
- Crystallizing
- Event Management Services

- Termite Control
- Bird repellent systems
- Flying & Crawling insect removal

PEST CONTROL

KITCHEN DUCT CLEANING

Kitchen Exhaust duct cleaning is very important from a safety point of view. The grease and oil that accumulates in kitchen exhaust ducts are potential source of fire hazard. It can also clog the motor of the exhaust fan resulting in poor efficiency and impacting the life of the motor.

WATER TANK DISINFECTION & CLEANING

All water tanks and the associated pipelines must be regularly inspected, maintained, cleaned and disinfected in line with local and International standards. The pipeline systems have to be kept clean to reduce the nutrients available for bacterial growth. So disinfection process is very significant to evade the buildup of dirt, organic matter or other debris.

AC DUCT CLEANING

Air Conditioning often have remnants of construction waste, bird & rodent droppings, dead insects and if moisture present, mold and fungus too. Hence its important to inspect the system & perform cleaning atleast once in two years.

New Orbit Group of Companies

New Orbit Trading was formed in 2010 as a trading company focusing on Sanitary wares. As part of the diversification strategy, New Orbit Tech Contracting was formed in 2016 as a specialist HVAC contractor which later developed into an MEP and Fitout Contractor. Fireman Safety Services, a QCDD approved Fire Fighting and Fire Alarm company, joined the group in 2016. The group also ventured into the F&B sector with the establishment of The Tea Junction. As part of further diversification and serving our existing customer base and beyond with specialist services in the field of Facility management, New Orbit Facilities Management was established in 2020.
